

Output Plug & Cable

Sinpro's switching power supply develops various kinds of output plugs to meet all kinds of applications and equipments. This is why it sometimes occurs the communication problems because we do not have the general description for these different requirements. To reduce the communication mistakes, we set all of the plugs by the different material codes. To all customers: Please note the plugs in blow list do not mean we have them in stock or have the ability to supply them. We only offer this list to be a communication tool for reducing the communication inaccuracy. If you have any question for below list, please do not hesitate to let us know, our sales people will give you the detail answers. Thank you for your concern for our products.

Output Plug & Cable

Sinpro's switching power supply develops various kinds of output plugs to meet all kinds of applications and equipments. This is why it sometimes occurs the communication problems because we do not have the general description for these different requirements. To reduce the communication mistakes, we set all of the plugs by the different material codes. To all customers: Please note the plugs in blow list do not mean we have them in stock or have the ability to supply them. We only offer this list to be a communication tool for reducing the communication inaccuracy. If you have any question for below list, please do not hesitate to let us know, our sales people will give you the detail answers. Thank you for your concern for our products.

#S21MH7-P08MFD0-397S(8PIN MALE PLUG)

P93B

ODU:
ODU#S41B0S-P02MPH0-55BS (Supplied by customer)

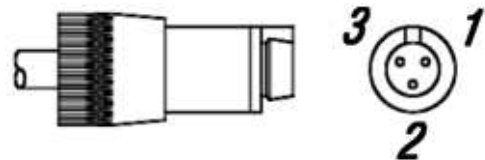

P93C

ODU:
(ODU)#S41F1C-P05MJG0-55GP,5PIN MALE PLUG(Supplied by customer)

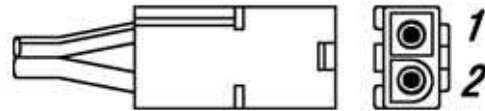

P94A

binder connector:
binder 719,09-9748-70-03(Supplied by customer)

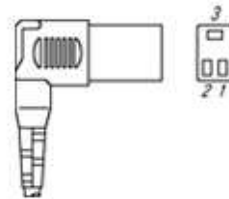

P95A

Molex connector:
Housing#35-14-10201,Pitch=6.2mm,or local equivalent

P96A

Speical Connectors:
SHIH YANG#SY-043-B

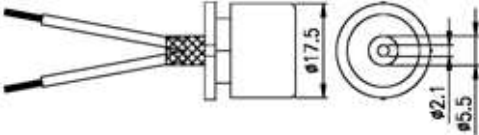

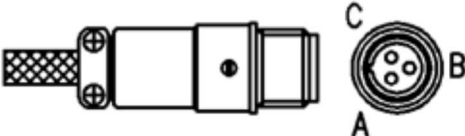

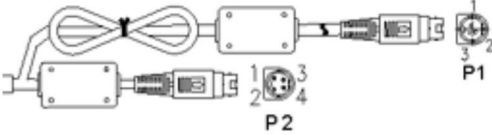

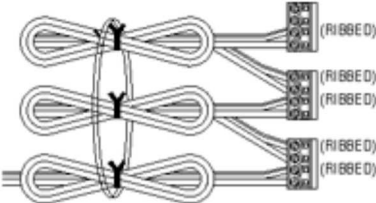

Output Plug & Cable

Sinpro's switching power supply develops various kinds of output plugs to meet all kinds of applications and equipments. This is why it sometimes occurs the communication problems because we do not have the general description for these different requirements. To reduce the communication mistakes, we set all of the plugs by the different material codes. To all customers: Please note the plugs in blow list do not mean we have them in stock or have the ability to supply them. We only offer this list to be a communication tool for reducing the communication inaccuracy. If you have any question for below list, please do not hesitate to let us know, our sales people will give you the detail answers. Thank you for your concern for our products.
